---

**Package:** \$300,000 + Bonus

**Location:** London

---

### Summary:

International Investment Bank, looking to expand their European presence and further develop the restructuring business by hiring a Partner for the London office.

---

### Job description:

International Investment Bank, looking to expand their European presence and further develop the restructuring business by hiring a Partner for the London office. With a strong presence in the US and Asia, the firm are now looking to develop their European office across multiple sectors.

You will be an experienced restructuring or workout professional with a track record leading successful turn-around operations. Given this role will be an essential part of the firms European expansion, you will need to have genuine expertise in the restructuring space – i.e. not a debt advisory or pure leveraged financier. You are likely to currently work as a number two in either a global Investment Bank or Law firm or within the restructuring practice of a 'Big 4' firm.

You will need to have an excellent board level network and strong relationships across Europe. Given the scope of this position, a fluency in one or more European languages is also necessary.
