

# Private Client Portfolio Manager

**Package:** £80 - £100k Base + 70 - 100% Bonus

**Location:** London

## Summary:

The boutique asset management arm of an international private bank, are looking to add an experienced private client portfolio manager to their team.

## Job description:

Having doubled the head count of the team in the past 12 months due to a surge in new net money, our client are now in a position to add a further portfolio manager to their team.

The successful individual will ideally have experience constructing portfolios for HNW / UHNW clients on a multi asset / multi currency basis.

The client is looking for someone with good client facing skills, but also with the technical acumen to contribute effectively to investment decisions. Therefore a CFA/ACA candidate with previous experience as an analyst before moving up to a portfolio manager would be the ideal profile.

This is an exciting opportunity with a bank who have maintained their reputation through the economic turmoil and are moving forward in a positive fashion.
