

Industrials Associate

Package: £60-70,000 + Bonus

Location: London

Summary:

Leading European Investment Bank requires an Associate level candidate to join the European Industrials Group.

Job description:

Leading European Investment Bank with a strong client base and excellent results for 2009 require an Associate to join the Industrials Coverage Group. The team exceeded budget last year and are well positioned for a successful year in 2010.

You will be an experienced Corporate finance professional, ideally having worked within a coverage team rather than an M&A product group. The team has been working on a large amount of equity and debt transactions and expects the advisory business to start picking up again this year.

Prior experience within Industrials or related sectors is not essential, but a good transaction history and solid execution experience is essential. Candidates will need to have completed an analyst training program within a reputable Investment Bank to be eligible for this role. Excellent analytical and modelling skills are a prerequisite.
