

Natural Resources – Senior Associate

Package: Circa £85,000 + Bonus

Location: London

Summary:

Natural Resources group at a Top Tier Investment Bank require an experienced senior associate with prior experience in either Oil & Gas or Chemicals.

Job description:

Natural Resources group at a Top Tier Investment Bank require an experienced senior associate with prior experience in either Oil & Gas or Chemicals.

You will be an experienced Corporate finance professional, ideally having worked within a coverage team rather than an M&A product group. The team has been working on a large amount of equity and debt transactions and expects the advisory business to start picking up again this year.

As one of the leading Investment Banks in the sector, you will need to be highly ranked against your peers and have a demonstrable and successful track record. A second language would be beneficial.
