

Corporate Finance – Analyst/Associate

Package: Base + Bonus + housing

Location: Riyadh, Saudi Arabia

Summary:

Long established, well regarded regional Investment Bank with a very strong, multi national advisory team require further analysts/associates for the Riyadh office.

Job description:

Long established, well regarded regional Investment Bank with a very strong, multi national advisory team require further analysts/associates for the Riyadh office. The firm has an excellent deal history and an exceptionally strong pipeline for the future.

You will need to have demonstrable corporate finance and specifically M&A experience, working within a top regional or global investment bank or advisory firm. Strong financial modelling and analytical skills are essential. This position will involve a large degree of execution as opposed to origination work, so you will develop a strong transaction history and have the opportunity to develop rapidly.

Fluency in Arabic would be preferred, but not essential. An understanding and intimacy with the region would be highly beneficial though.
