

# Director of Business Development

**Package:** Up to £100k Base + Bonus

**Location:** London

## Summary:

Well respected Traditional Asset Management house looking to add an experienced Director of Business Development to their London team.

## Job description:

This global investment management firm have £30 Billion AUM across the company, with £3 Billion currently on both the private client side of the business. This role will be responsible for working with the Private Client Business Development team to plan, budget, manage and execute the business development and client service objectives for Private Clients.

With a team of 4 within the Business Development team our client is looking to target the IFA space, and therefore the successful individual will ideally have relationships with top IFA firms already in place as well as offshore trust companies.

This is a fantastic opportunity to join a well respected traditional Asset Management firm with offices based globally.
