

# Technology - Analyst

---

**Package:** circa £50,000 + Bonus

**Location:** London

---

## Summary:

Top tier Investment Bank is looking to add an exceptional, French speaking analyst to the Technology Investment Banking group.

---

## Job description:

As one of the top ranked Technology Investment Banking groups in Europe, this team are now looking to add a further Analyst. As a leading sector team at one of the leading Investment Banks, they are looking for an exceptional individual with a real passion and enthusiasm for the Technology sector.

You will be involved in the full spectrum of transactions from origination to execution and will gain excellent exposure to senior bankers early on. First class modelling and analytical skills are essential and you will ideally have prior transaction experience in a related sector.

Fluency in French is required for this role along with a financial or engineering degree from a top school. The group are consistently topping league tables in Europe, so you will also need to be top ranked against your peers.
