

# Investment Product Manager

**Package:** Director Level Remuneration

**Location:** London

## Summary:

My client is one of the leading banks globally and has enjoyed continued success over the last decade. They are currently expanding the Product Development and Management team and are looking for a Product Manager to work closely with the Head of this department in taking the team forward.

## Role Purpose

Directly responsible for product management of the investment product lines (advisory and discretionary), with a key focus on working with relationship management teams to generate AUM and revenue for investment products.

## Responsibilities

- Management responsibility for investment (advisory and discretionary) product management for the Private Bank, managing the phases of the product life cycle.
- Responsibility for monitoring existing/ new product range versus competitor and market developments and keeping abreast of developments.
- Ensure Product lines continue to fit within regulatory, tax and legal environment, also responsibility for managing and communicating changes.

Targets will be based on assisting the Relationship Management workforce in reaching AUM and revenue targets for investment products.
